AVA VENTURE STUDIO

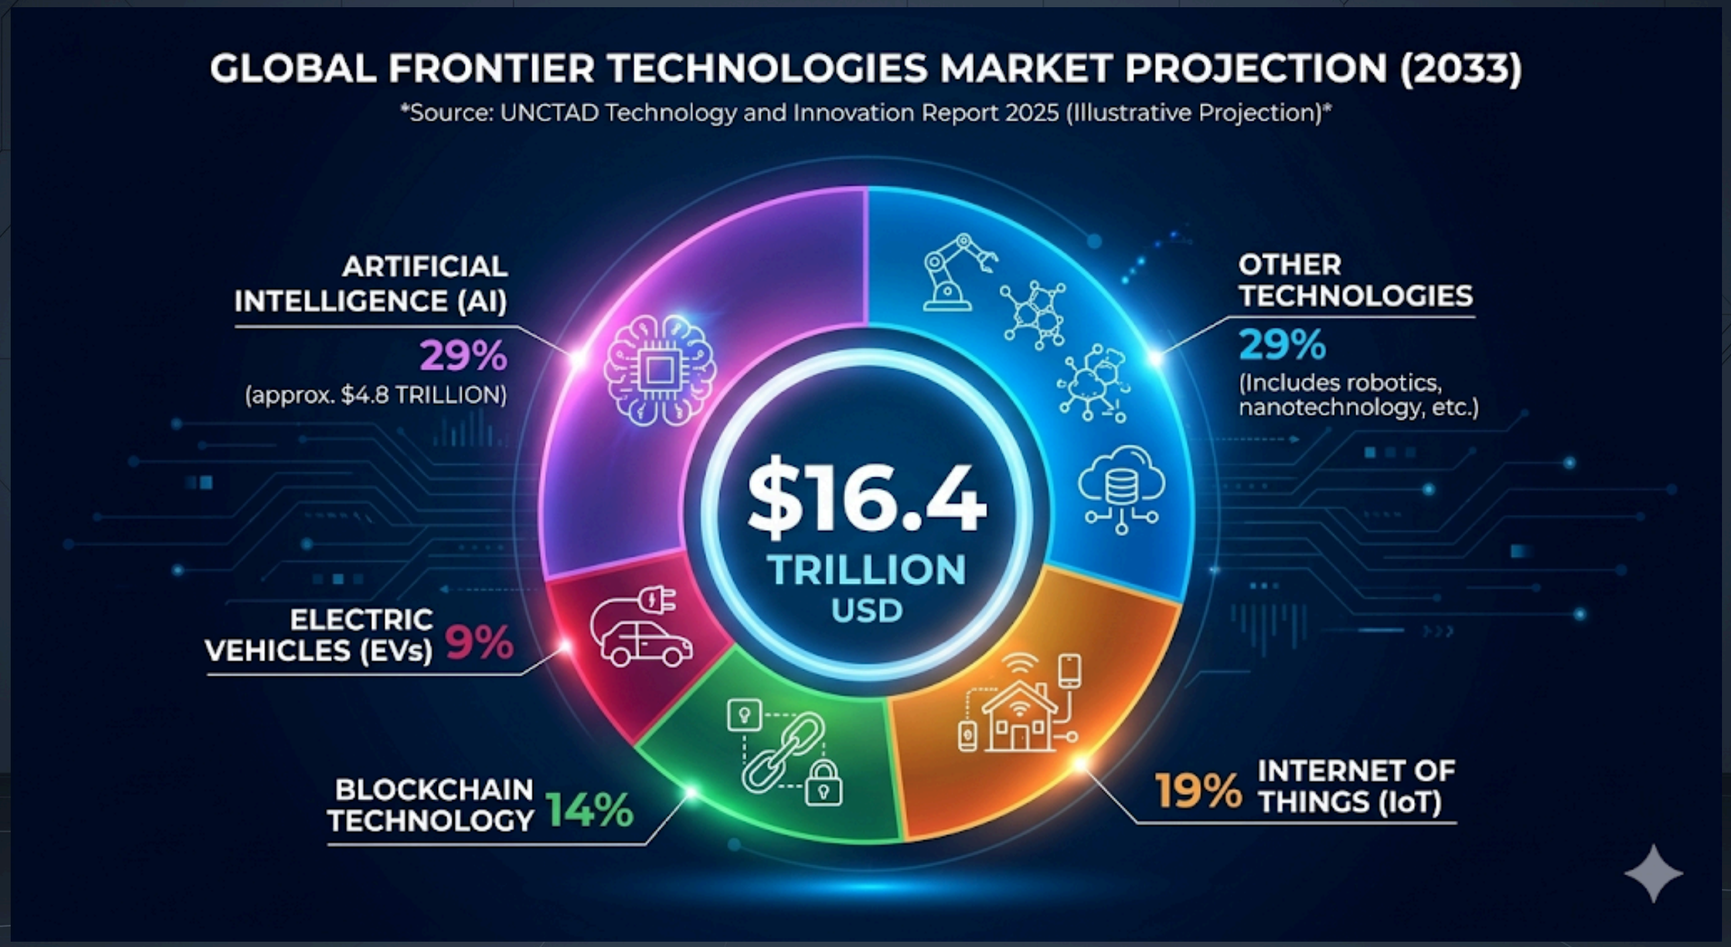
LAWTECH FUND

VENTURE STUDIO PROMOTING LEGAL DISRUPTIVE TECHNOLOGY: **LAWTECH.**

Law Is One of the Last Massive Industries Still Waiting for Scalable Disruption

- Legal services remain expensive, slow, and inaccessible for billions of people and millions of businesses.
- At the same time, Ai, automation, cloud infrastructure, digital identity, blockchain, and data-driven platforms are reshaping how professional services are created, delivered, and monetized.
- AVA Venture Studio is building a LawTech ecosystem designed to make legal support faster, more affordable, and globally scalable.
- We are not building one legal app. We are building an ecosystem for the next generation of legal access, compliance, IP protection, digital legacy, and AI-assisted professional services.

The global frontier technologies market is experiencing unprecedented explosive growth. According to the latest UNCTAD report (2025), the sector will scale from $2.5 trillion in 2023 to a staggering $16.4 trillion by 2033. Of this monumental growth, Artificial Intelligence will account for nearly a third of the market ($4.8 trillion), solidifying itself as the ultimate engine of the technological economy for the next decade.



The Legal Market Is Entering Its AI Inflection Point

- The global Legal Tech market is expected to reach US$39 billion in 2026 and grow to US$72 billion by 2031, with a projected 13.22% CAGR. (Mordor Intelligence)

- The AI opportunity is even larger. UN Trade and Development projects the global AI market could grow from US$190 billion in 2023 to US$5 trillion by 2033 — a 25x increase in one decade. (UN Trade and Development (UNCTAD)

Why now?

- Legal users are demanding speed, affordability, transparency, and digital-first solutions. Law firms and corporate legal departments are also under pressure to automate repetitive work, reduce cost, and serve more clients without increasing headcount.

AVA operates at the intersection of Law Tech, AI, automation, compliance, IP, and digital trust — a convergence point with global scale.

The Problem

The Justice Gap Is a Global Market Failure

An estimated 5 billion people globally have unmet justice needs, including people who cannot resolve everyday legal problems, cannot access legal protections, or live under extreme conditions of injustice. (World Justice Project)

For individuals, the barriers are clear: **Cost. Complexity. Geography. Language. Trust. Time.**

For companies, the pain is different but equally urgent: **Contracts. Compliance. Labor risk. Data privacy. IP protection. Regulatory exposure. Legal operations.**

The current system was not designed for scale. Traditional legal services are built around hourly billing, physical offices, manual processes, and professional gatekeepers.

The market does not need more legal information. It needs legal execution that is affordable, guided, automated, and trusted.

The AVA Solution

From Legal Information to Legal Execution

AVA Venture Studio builds and scales LawTech platforms that combine:

- **Artificial Intelligence**
- **Legal workflows**
- **Document automation**
- **Professional matchmaking**
- **IP protection**
- **Compliance tools**
- **Digital legacy infrastructure**
- **Human expert escalation**

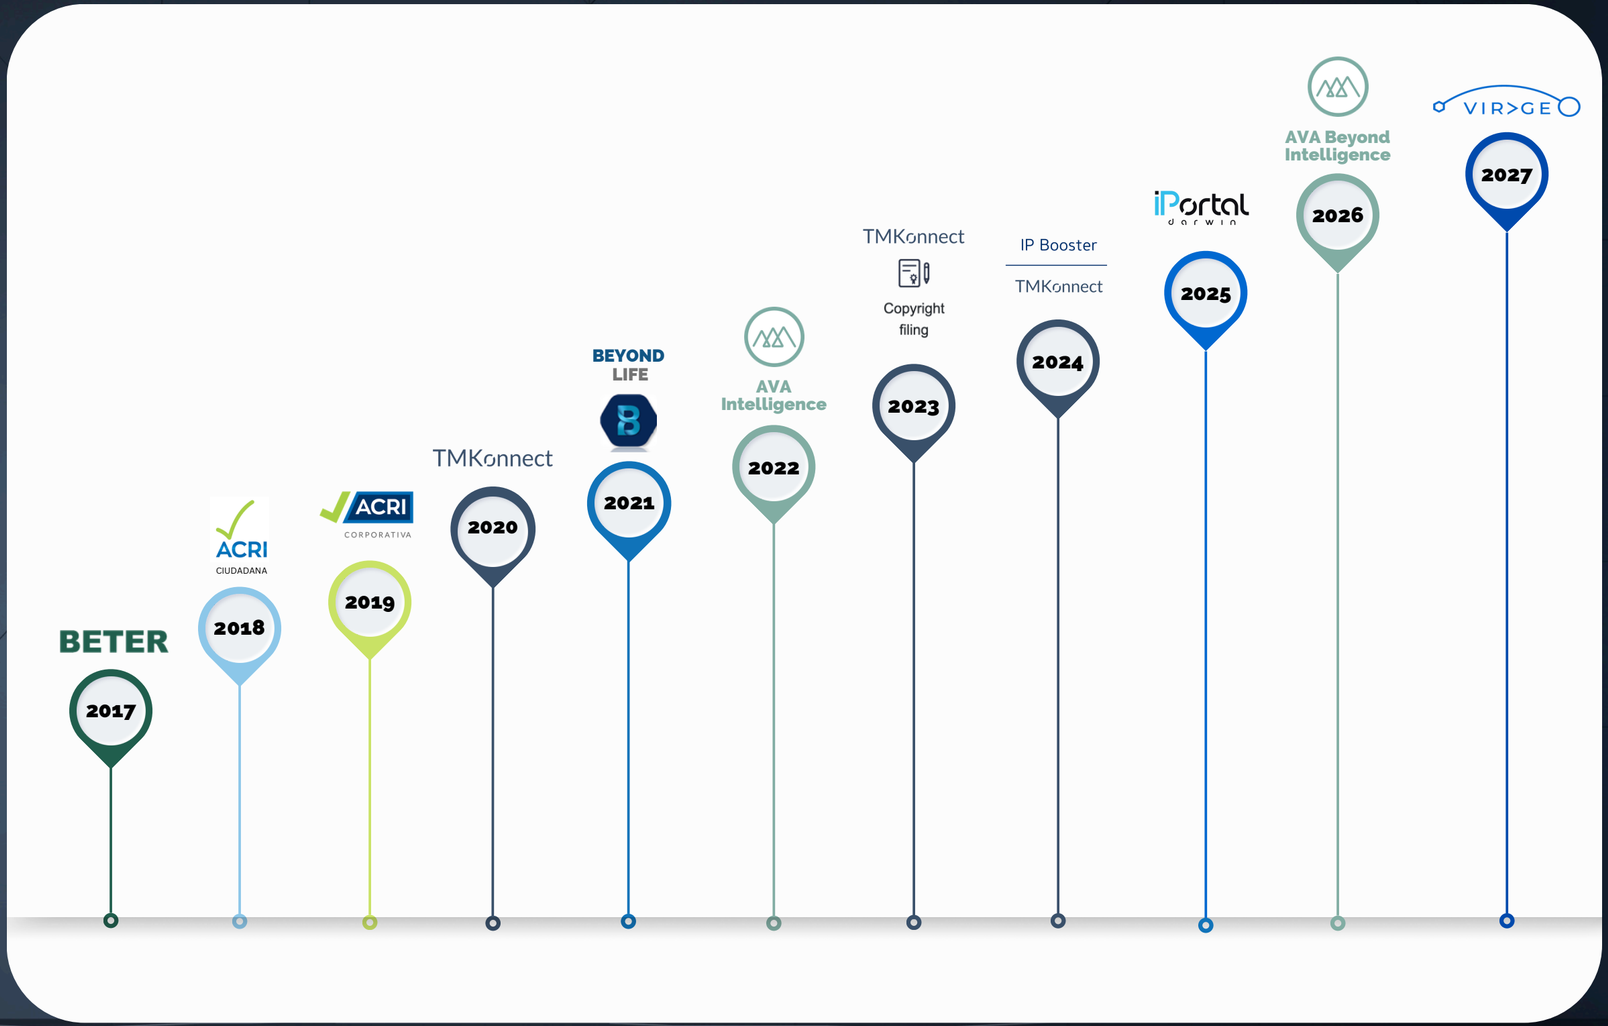
Our vision is simple:
Move the user from “Do It Yourself” to “Do It For You.” Our platforms help users understand their legal situation, generate documents, connect with verified professionals, protect their most valuable intangible assets, manage legal or compliance processes from a digital environment, and more.

AVA transforms fragmented legal needs into scalable digital journeys.

AVA Venture Studio has developed a portfolio of LawTech and frontier technology platforms serving individuals, MSMEs, corporations, professionals, and institutions.

Core portfolio

- IP Booster
- BETER
- ACRI Ciudadana
- ACRI Corporativa
- TMKonnect
- BeyondLife
- AVA intelligence
- Darwin iPortal
- Virdge



Each platform can generate revenue independently, while the ecosystem increases user retention, data value, cross-selling, and long-term defensibility.

Meet the Team

Experts in the Legal Ecosystem, Technology Platforms, Generative Ai, Blockchain, Cybersecurity, VR (Metaverse), UX/UI, Marketing and Finance conform AVA Venture Studio's Team.

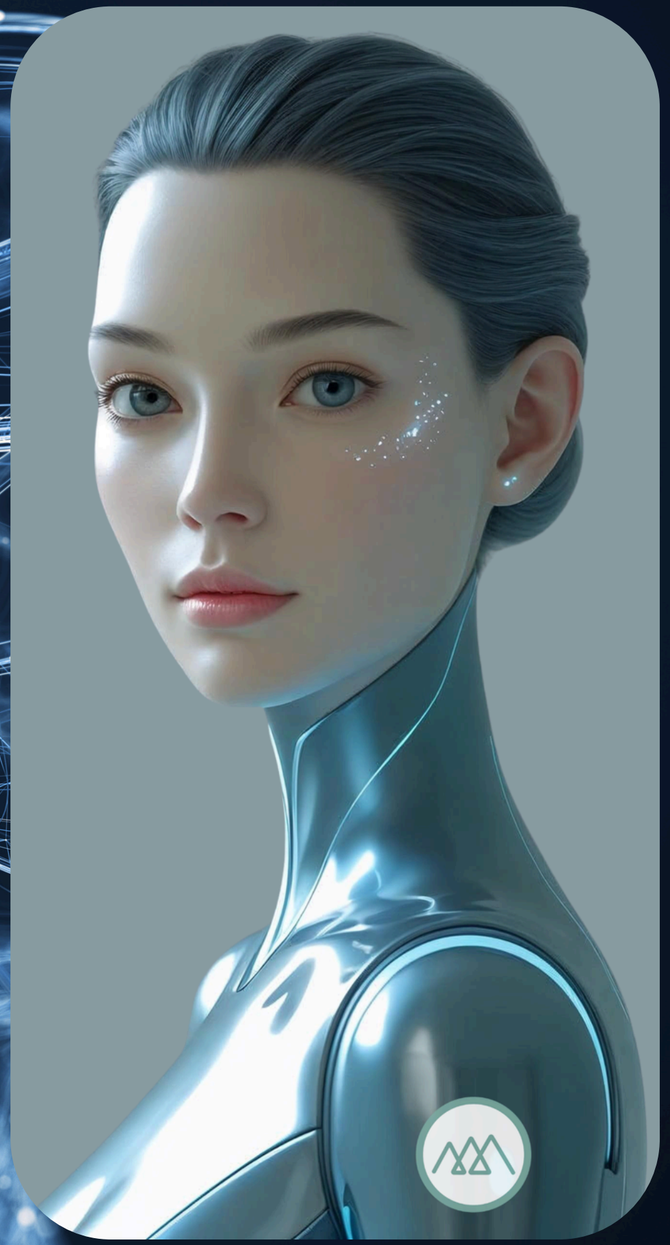
BEYONDLife= Ai, Blockchain, Avatar, and VR.

AVA INTELLIGENCE

Welcome to the future of work with AVA Intelligence. We haven't just built another chatbot; we've developed an advanced, Generative AI. AVAi engages with you—answering your questions while proactively asking the right ones to tailor every response to your precise needs.

Future direction:
AVA Intelligence becomes the foundation for more personalized AI experiences, including professional assistants, compliance copilots, and eventually digital twin capabilities within BeyondLife.

AVA Intelligence is the connective tissue of the portfolio — increasing automation, retention, personalization, and data-driven defensibility.



Business Model

Today, 70–90% of the global population is locked out of affordable legal services. We're changing that. By merging deep intellectual property expertise with cutting-edge Frontier Technology, we empower individuals, MSMEs, and communities to access legal guidance and documentation that was once out of reach.

The Future of Legal Services—At Your Fingertips!

Flexible, Accessible, Transformative

- **Freemium Entry:** Start with free access to essential legal advice and resources.
- **Premium Advantage:** Personalized support, advanced tools, and comprehensive legal solutions.
- **Smart Subscriptions:** Choose monthly or annual plans designed for seamless accessibility and affordability.

We're not just offering LawTech. We're unlocking a future where everyone can access what they need, when they need it, wherever they are.

Strategic Growth Pillars

- **Consulting Services:** Our platforms, also offer consulting services where experts provide personalized guidance and support to users at affordable prices.

- **Partnerships and Licensing:** We're actively seeking partnerships with lawyers, law firms, corporations, and institutions to expand our reach and offer our technology to a broader audience.

- **Global Expansion:** We aim to expand our operations to different countries. This involves adapting our platforms to comply with local regulations and languages, as well as establishing partnerships with legal professionals and organizations in each market.

- **Continuous Innovation:** We prioritize ongoing research and development to stay at the forefront of Legal Technology Innovation. This includes investing in new Technologies, Improving our existing platforms based on User Feedback & Frontier Technologies.
