STUDIO

LAWTECH FUND

VENTURE STUDIO PROMOTING LEGAL DISRUPTIVE TECHNOLOGY: LAWTECH.

WHAT WE OFFER?

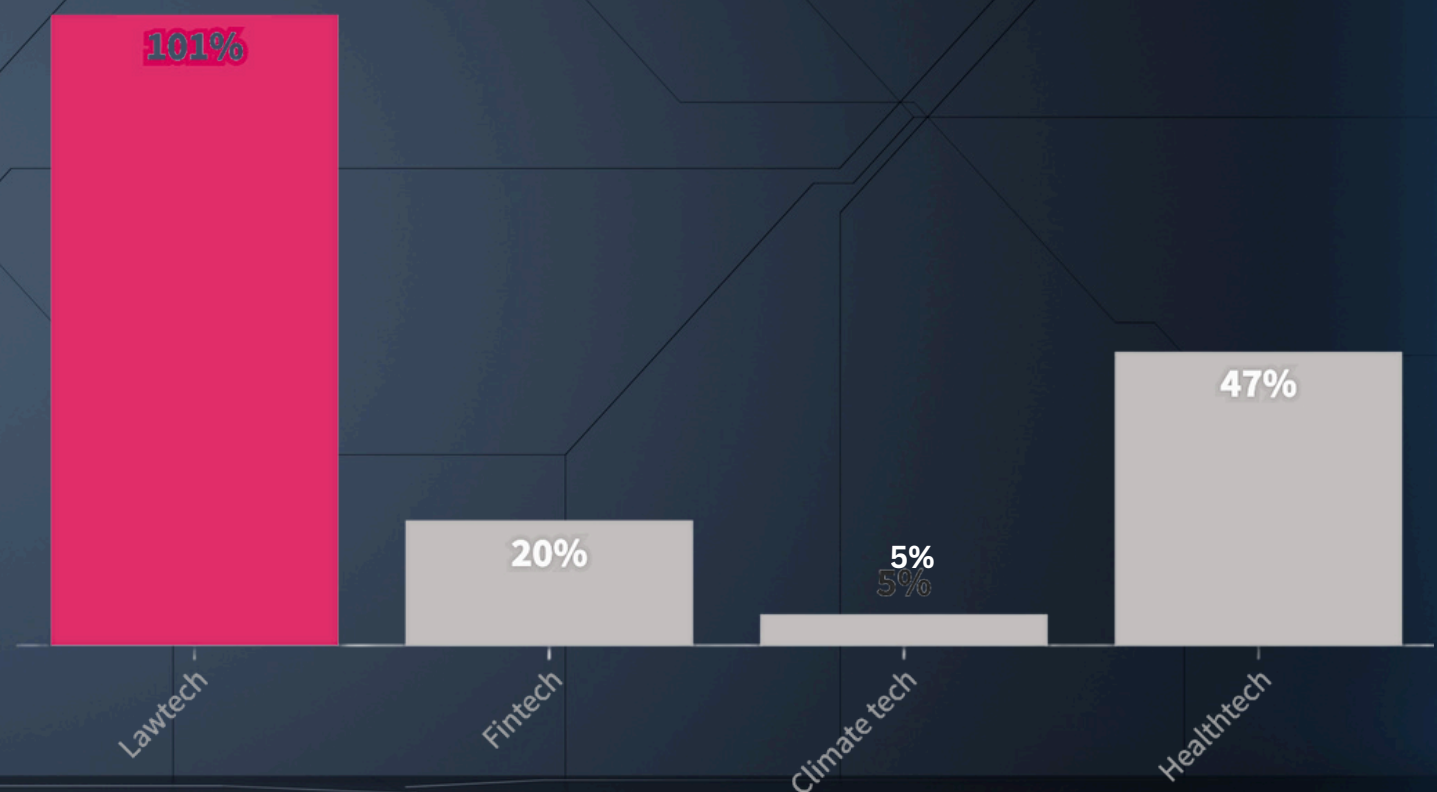

- The Future of Work isn't some distant horizon—it's happening now. While you're reading this, the very nature of work is transforming, driven by the relentless march of frontier technologies. This isn't a future to prepare for; it's a present to navigate. **The question isn't *if* it will change, but *how* you will adapt?**
- Imagine a world where legal solutions are accessible to everyone. We're making that vision a reality by developing groundbreaking Global LawTech solutions, empowering individuals, MSMEs, companies, and organizations to thrive. Our approach fuses the power of intellectual property (IP: Trademarks, Patents, Copyrights, and Industrial Secrets) with cutting-edge Frontier Technologies (FT: AI, Blockchain, NFTs, IoT, Avatars, VR/AR, and Cryptos). We're shifting the paradigm from "Do It Yourself" to a seamless "Do It For You" experience.
- By democratizing and modernizing legal services, we're tearing down the barriers that prevent 90% of humanity from accessing justice and quality legal counsel. We're placing Technology directly To Consumers (T2C), building a balanced and transformative ecosystem that reshapes how traditional legal services are delivered. and experienced.

THE RISE OF LAWTECH

- LawTech: Disruptive FT + IP aiming to support, supplement, or replace traditional methods for delivering legal services to all.
- The fastest-growing areas within LawTech include regulatory and compliance (214%), consumer and SME LawTech services (74%), and document creation, management, and review (24%).
- Growth of the LawTech market has increased at a rate higher to 100% during the past years — faster than other Tech Sectors, in UK during 2026, £2.2bn investment will be placed in LawTech companies, according to Lawtech UK's 2021 Shaping the Future of Law report*.

PROBLEM

AT LEAST 70% OF THE WORLD POPULATION, HAS NO ACCESS TO THE LEGAL & JUSTICE ENVIRONMENT.

According to the World Justice Project Global Insights on Access to Justice reports, more than 5 billion people worldwide (at least 70% of the global population), lack of meaningful access to justice.

This lack of access can stem from an issue range, including institutional, geographical, cultural, and linguistic barriers, financial constraints, discrimination, social and gender inequality, and even the current Monopoly of the legal system.

An additional 20% lacks quality affordable legal services, creating a 90% market that today is considered abandoned.

SOLUTION

AVA Venture Studio, a Startup builder represents a powerful model for incubating and launching new legal businesses adopting IP + Frontier Technologies under the DIY/DIFY concepts: LawTech.

Compelling alternatives to the traditional legal models, offering a dynamic and collaborative approach to building scalable businesses in today's rapidly evolving market landscape.

AVA Venture Studio offers LawTech solutions with the potential to democratize legal services, making them more affordable to individuals and MSMEs, and allowing access to the legal and justice ecosystems by the general public.

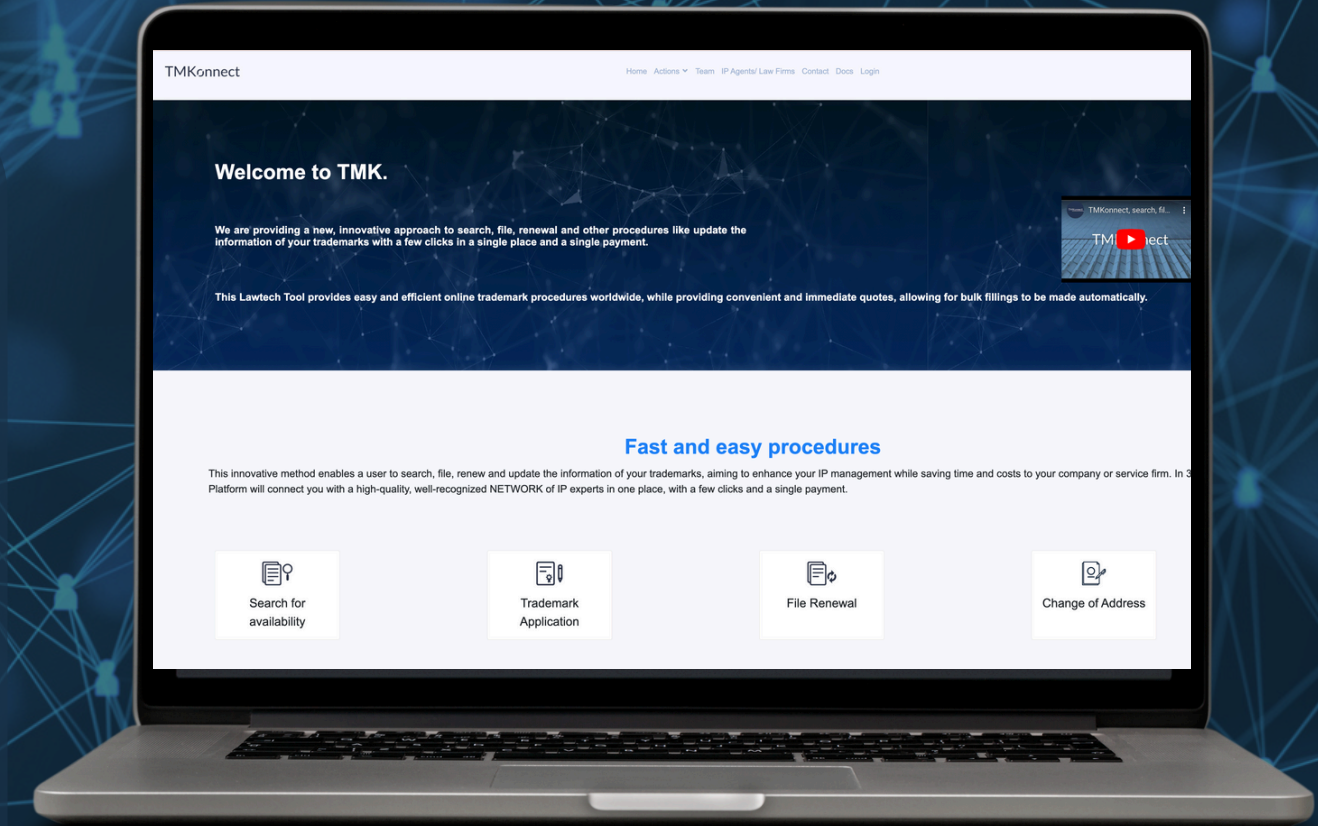

AVA Venture Studio is committed through Disruptive LawTech Solutions to reach that 70 - 90% of the world's population that lacks of justice or receives a very poor or low-quality legal advice.

INTRODUCING

AVA INTELLIGENCE

AVA Intelligence transcends traditional search engines and chatbots. As a revolutionary Generative Artificial Intelligence, it empowers users not just to ask questions, but to dynamically explore knowledge through interactive dialogue.

In its initial phase, AVA leverages the power of OpenAI's ChatGPT. When a query falls outside AVA's existing knowledge base, it seamlessly queries ChatGPT, delivering the answer and simultaneously learning.

This continuous learning process allows AVA to rapidly expand its knowledge and become even more powerful with time.

AVA will be the base to create AVA Beyond Intelligence that will learn from the user, creating the Digital Twin, to eventually interact with their designated beneficiaries as a General Ai.

BUSINESS MODEL

Today, 70–90% of the global population is locked out of affordable legal services. We're changing that.

By merging deep intellectual property expertise with cutting-edge Frontier Technology, we empower individuals, MSMEs, and communities to access legal guidance and documentation that was once out of reach.

The Future of Legal Services—At Your Fingertips!

Flexible, Accessible, Transformative

- **Freemium Entry:** Start with free access to essential legal advice and resources.
- **Premium Advantage:** Unlock personalized support, advanced tools, and comprehensive legal solutions.
- **Smart Subscriptions:** Choose monthly or annual plans designed for seamless accessibility and affordability.

We're not just offering legal tech. We're unlocking a future where everyone can access what they need, when they need it, wherever they are.

STRATEGIC GROWTH PILLARS

- **Consulting Services:** Our platforms, also offer consulting services where legal experts provide personalized guidance and support to users at affordable prices.
- **Partnerships and Licensing:** We're actively seeking partnerships with lawyers, law firms, corporations, and institutions to expand our reach and offer our technology to a broader audience.
- **Global Expansion:** We aim to expand our operations to different countries. This involves adapting our platforms to comply with local regulations and languages, as well as establishing partnerships with legal professionals and organizations in each market.
- **Continuous Innovation:** We prioritize ongoing research and development to stay at the forefront of Legal Technology Innovation. This includes investing in new Technologies, Improving our existing platforms based on User Feedback & Frontier Technologies.
